White Papers

Learn about the specifics of new technologies and trending topics in methodically researched white papers.

unios.com/whitepapers

Changing how the world views lighting.

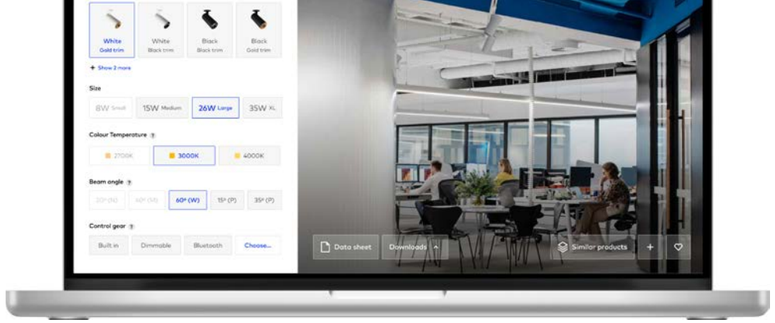
Building digital tools.
Sharing new knowledge.

We're simplifying lighting for a brighter future. We empower you with digital tools, jargon-free knowledge and premium products with honest value to take the stress out of lighting.

The Conventional Approach	The Unios Approach
Hours of time searching products and specs	Seconds to find what you need
Missing specifications	Complete data at your fingertips
Limited options	A complete project solution
Overly technical wording	Jargon-free explanations

A perfect pair — catalogue to website

The Unios Product Showcase is designed in unison with the Unios Toolbox (unios.com). Complementary to each other, this catalogue helps showcase and provide an overview of Unios products, while the Toolbox paints a more detailed picture through its intuitive user interface. Find below our recommendation for building an intuitive workflow starting with this Product Showcase catalogue to the Unios Toolbox.

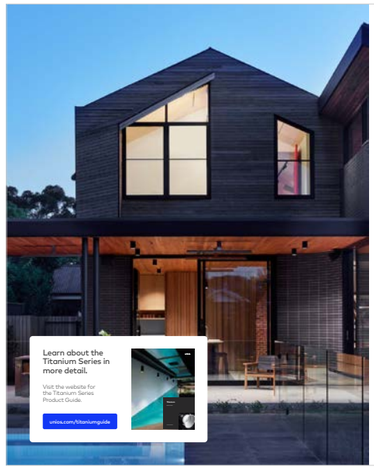


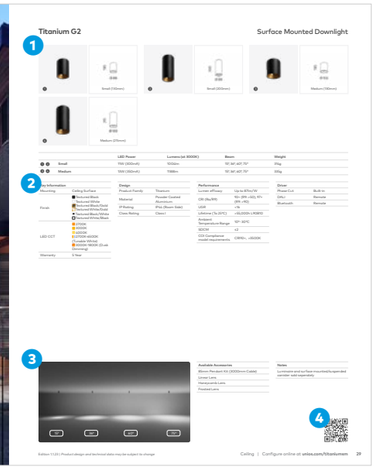
1 Configure

Toolbox provides live visualisation with detailed specifications of what you have configured, helping you find the right products for your needs.

2 Export in seconds

Configure products, bookmark, download key assets from data sheet to IES and BIM files, all in seconds.





1 Browse our models

Refer to each image and diagram to get an overview of the product model options.

2 A high level overview

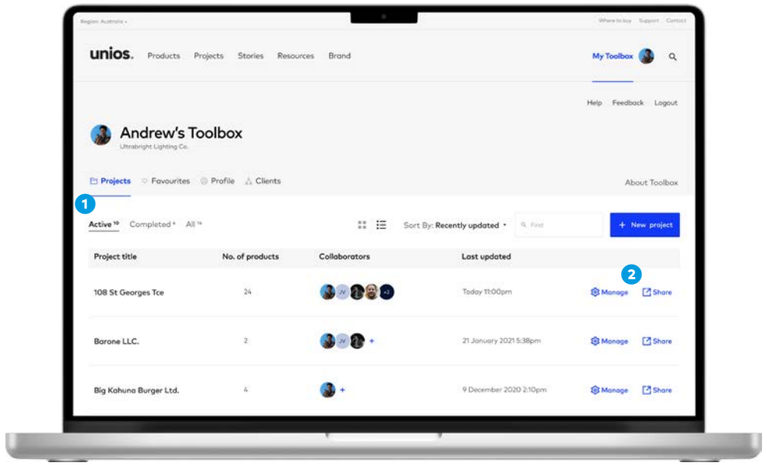
Access product key information, from design attributes, performance specifications, driver details to accessories.

3 Beam visualisation

View our beam render to better visualise product options and their lighting effects.

4 Simple transition

Scan the QR code or access the footer link to transition from the catalogue to our Toolbox for a more detailed view of products.

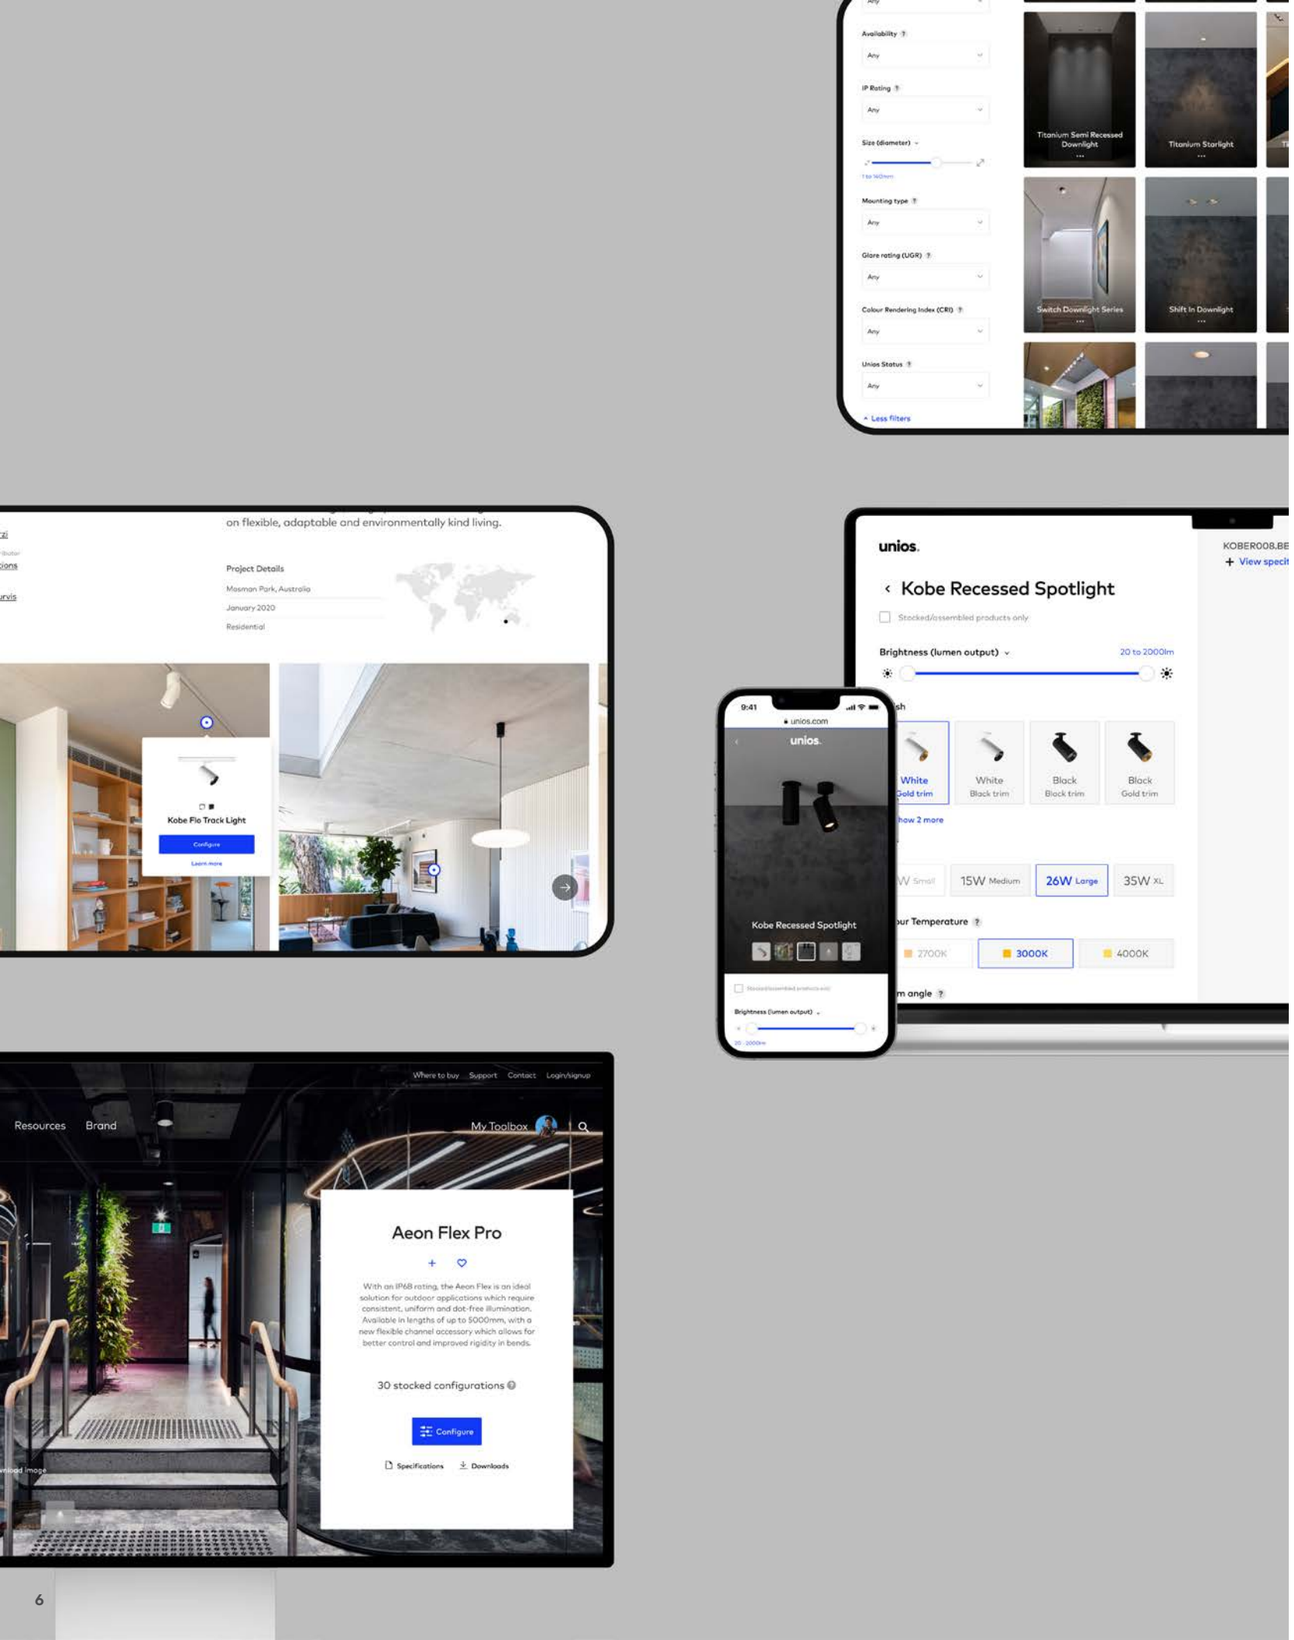


1 Manage your projects

With the Toolbox project management feature, you can edit your lighting choices for each project, add and duplicate projects within a few clicks.

2 Collaborate for clarity

Keep your project partners in the loop and achieve clarity with the Toolbox share and collaboration tool.



Lighting simplified for the digital world — Unios Toolbox

Unios Toolbox is a synchronised and simplified solution to the lighting selection process. The platform provides a universal playground for configuring, bookmarking, specifying and collaborating on luminaires for any project.

Toolbox takes the headache out of lighting selection by making thousands of options configurable in seconds, helping you select exactly what you need.

Configure

When using the Unios Toolbox's configuration tools, you can browse different finishes, optics and accessories with live in-line imagery. Additionally, every product has a listed indicative stock availability and selectable compatible driver options, from standard to DALI and Bluetooth.

Select

Add products to an infinite number of projects via the project management tool. Projects can be added and duplicated as required with an accessible history log to keep an archive of your progress.

Export

Powerful export tools are available to output customised data sheets (with logo and contact details) and provide easy access to IES and BIM (Revit, Sketchup) files.

Share & Collaborate

With every compiled project schedule, you can export and share either a project PDF or Excel file. Whatever your workflow, there are product imagery, type numbers, tender text and relevant technical details to fit into any systems or processes.

In a world where time is one of the most important currencies, Unios Toolbox helps you win back time and take the complexity out of lighting a project.

Build and export a comprehensive lighting schedule in Excel or PDF in seconds.

6000+

unique projects created on the platform in the past two and a half years.

750+

accounts created to manage different projects and lighting schedules.

52%

of time saved for designers, consultants and builders compared to other brands.

Titanium Collection
Ceiling

23

Light without boundaries — the signature Unios ceiling collection for any application and design intent.

EQ Collection
Ceiling | Track

59

Perfecting the essentials – classic Unios design, pro-grade performance, simplified options and a compact price to match.

Particle Collection
Ceiling

69

An immaculate ceiling series for occasions where precise beam control and low glare are paramount.

Node Collection
Ceiling

79

A comprehensive darklight solution that perfectly delivers versatility, efficiency and glare control.

Apex Collection
Ceiling

85

Practical and efficient – achieve the perfect balance with this downlight collection.

Shift Collection
Ceiling

103

A beautiful accent downlight with tiltable snorkel design in a range of striking contrasting finishes.

Athena Collection
Ceiling | Wall

119

Unlock outdoor lighting potential with this versatile luminaire collection.

Akira Collection
Ceiling | Track

129

A collection of ceiling luminaires that provide a smooth, high level of diffused brightness for all environments.

Scope Collection
Ceiling | Track

139

A modern and precise solution to accent objects, architectural features and spaces.

Axis Collection
Ceiling | Track

151

Achieve unparalleled flexibility for the ceiling and track environment through the unique rotatable head design.

Kobe Collection
Ceiling | Track

157

A highly customisable track spotlight collection with a range of finishes, sizes, optics and control options.

FX 48V Collection
Track

165

The possibilities are endless with this 48V collection of track luminaires.

MX Collection
Track

185

A complete suite of single and three circuit track with compatible accessories to power any track solution.

LX Infinity Collection
Linear

215

The ultimate linear profile solution with comprehensive optic, mounting and control options.

Eclipse Collection
Linear

237

A collection with excellent colour rendering, uniformity and durability with a variety of profiles to harmonise any design.

Aeon Flex Collection
Linear

251

A comprehensive linear series with superior uniformity, flexibility and durability for any linear application.

Onyx Collection
Wall | Ceiling

277

The classic outdoor wall series designed with form and function, fitting for a range of outdoor applications.

Emerald Collection
Landscaping

347

A collection of spotlights, spike spotlights, and inground uplights to create an elegant landscape environment.

Quality lighting to meet every project requirement

Residential

Unios provides an extensive product range from interior to landscape that can perfectly embed comfort and warmth in the home.

Offices

Our range of linear products has been engineered and equipped with modern technology to support a healthy and dynamic work environment.

Retail

With superior colour rendering ability, Unios luminaires perfectly illuminate the display of products, making the retail environment more appealing.

Hotels

From interior to exterior, Unios' lighting solution is trusted by world-renowned and boutique hotel brands, such as DoubleTree by Hilton, Grand Hyatt, and Mercure.

Aged Care

Unios provides well-rounded lighting solutions that meet the quality requirements of senior care while optimising whole-of-life costs.

Education

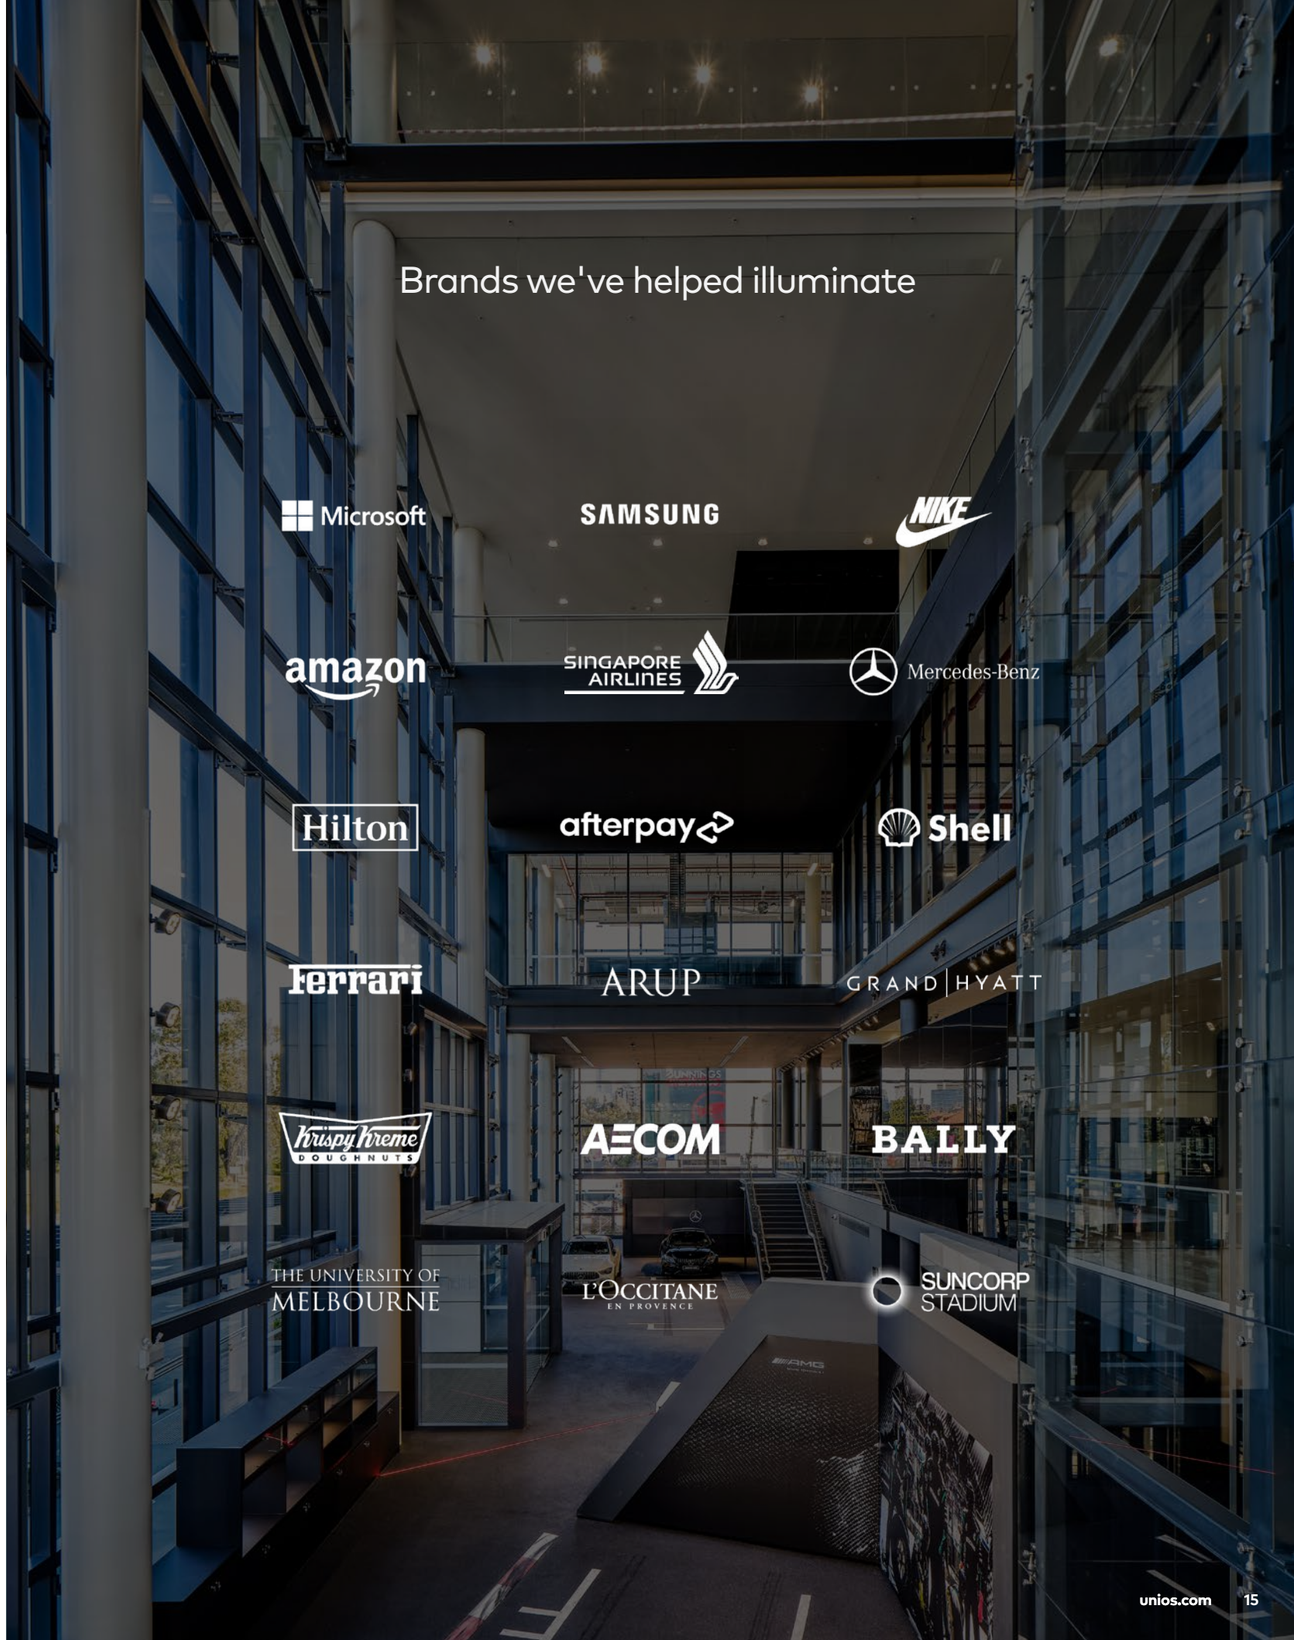
Unios has a great breadth of experience in creating healthy learning environments for Australian domestic and global education institutions, such as Monash University, the University of Melbourne, and RMIT.

Arts & Culture

Our track light and spotlight collections have been engineered with excellent colour rendering ability with great flexibility, making them the ideal solutions for galleries and exhibitions.

Public Spaces

Unios' luminaires support safe movements in public spaces, with durability and protection against dust and water, and physical impacts.



Our distribution network

An ever-growing global presence

In the post-pandemic era, we've learnt that the construction industry is constantly changing, with project lead times getting shorter as most cannot wait 10 - 12 weeks to have products on-site. Therefore, Unios has established a global distribution network across Asia and Australia to strengthen our ability to meet the ever-changing market demand. We have a team of lighting experts who constantly analyse market trends to ensure we always have the right products in stock to support your project requirements, no matter the location.

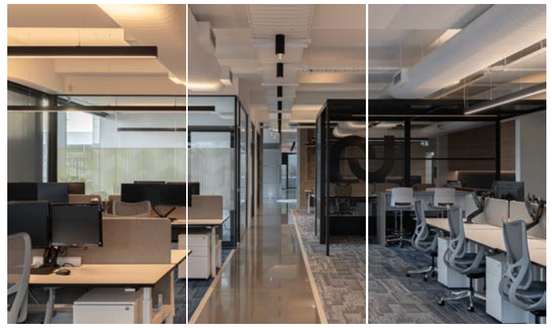
Lighting for people and wellness



We believe new lighting technology can make a positive, long-lasting impact on the way we live and work — from reducing flicker to fostering green spaces indoors.

Flicker-Free Technology

Compliant with the IEEE 1789 'No Observable Effect' standard, our G2 Phase-Cut Driver will help prevent known potential adverse health effects with its flicker-free feature. Providing a solution for every application while maximising flexibility and power, these drivers offer flicker-free operation, an improved dimming range and long term reliability for your next project.

Bluetooth Casambi

In partnership with Casambi, our smart lighting solution is a complete platform for lighting control based around Bluetooth Low Energy (BLE). Unios luminaires can be configured through your smart devices to open the possibilities for lighting control, colour temperature tuning, creating scenes and animations.

Horticulture LED Lighting

Successfully growing greenwalls and plants indoors is an exact science. We've conducted the research to develop an innovative range of horticulture luminaires to help you bring the benefits of nature indoors. Our Flo technology combines architectural lighting design with horticulture technology, ideal for greenscapes and indoor plants.

Tunable White

Tunable white technology allows users to achieve a range of 2700K to 5700K from one luminaire. Being able to calibrate colour temperatures from warm to cool light enables users to control mood and positively affects well-being if tuned to match circadian rhythms.

Colour Consistency & Accuracy

All our luminaires use LED engines have best-in-class colour consistency and accuracy. Be assured that throughout an entire project, colour temperatures are precise and consistent (SDCM≤2), while colours are accurate and vivid (CRI97+).

25-50%

of migraine sufferers identified flicker as a trigger in addition to doubling the average incidence of headaches.

87%

of toxins can be removed within 24 hours with the use of indoor plants.

R9

(red) values are stated on Unios luminaires in addition to CRI to provide a more holistic depiction of colour accuracy.

A labour of love and light from Australia

Crafted in Australia

2 weeks

Australian fabricated Unios luminaires can be customised and made ready for global shipment in as little as 2 weeks.

5,200

uniquely stocked items in our Australian facility, ready to dispatch on demand to meet any project requirements.

100K

different customisable variations in our Australian warehouse ready to assemble.

Select ranges of Unios luminaires are made with precision and care by our expert lighting fabricators in Australia. Every luminaire starts with our product engineers and ends with the expert touch of our Australian fabricators. It's a labour of love and light from Australia.

The requirements of a project are ever-evolving, from design all the way through to construction. Sometimes it is the changing dimensions of a wall or a tweak in material choice.

These incremental updates through the journey of a project can cause enormous headaches when selecting products with lead times that can span months. Whether it be colours or beam angles, changes to the product selection can be difficult or sometimes impossible.

With the Australian fabricated product ranges, your luminaires will be customised to the exact millimetre and ready for dispatch in as little as ten business days for deliveries worldwide. Crafted in Australia is our effort to support a lighting world with peace of mind and minimal fuss.

We are a proudly Australian brand with a global reach. Our headquarter, located in Australia, includes state-of-the-art offices and production facilities. Spanning over 6,000sqm, this sprawling facility is a design and engineering hub, research and development centre and a futureproof fabrication plant. Our growing team is dedicated to the pursuit of simplifying lighting with Australian-designed and fabricated products.

Finish	Textured Black Textured White Textured Black/Gold Textured White/Gold Textured Black/White Textured White/Black
LED CCT	2700K 3000K 4000K 2700K-6500K (Tunable White) 3000K-1800K (Dusk Dimming)
Warranty	5 Year

Design	
Product Family	Titanium
Material	Powder Coated Aluminium
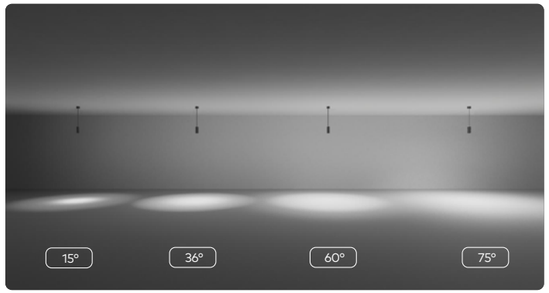
IP Rating	IP20
Class Rating	Class I
Cable Length	3000mm

Performance	
Lumen efficacy	Up to 87lm/W
CRI (Ra/R9)	92+ (R9: >50), 97+ (R9: >90)
UGR	<16
Lifetime (Ta 25ºC)	>55,000h L90B10
Ambient Temperature Range	10º- 30ºC
SDCM	≤2
COI Compliance model requirements	4000K

Driver	
Phase Cut	130mm: Remote, 215mm: Built-in
DALI	130mm: Remote, 215mm: Built-in
Bluetooth	Remote



Available Accessories
Linear Lens (for elliptical beams)
Honeycomb Lens (for reduced glare)
Frosted Lens (75° beam)

Notes
Luminaire and suspended canister sold separately.
For CRI 97+ lumen outputs and polar diagrams, please refer to the Unios Toolbox.

LED CCT	2700K 3000K 4000K 3000K-1800K (Dusk Dimming)
Warranty	5 Year

Design	
Product Family	Apex
Material	Powder Coated Aluminium
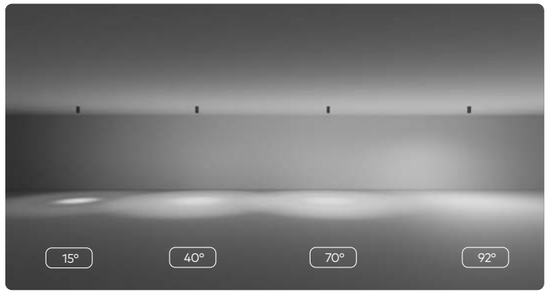
IP Rating	IP20
IK Rating	IK08, IK10
Class Rating	Class I

Performance	
Lumen efficacy	Up to 94lm/W
CRI (Ra/R9)	92+ (R9: >50)
UGR	<19, <25 (Frosted Lens)
Lifetime (Ta 25ºC)	>55,000h L80B10
Ambient Temperature Range	10º- 30ºC
SDCM	≤2
COI Compliance model requirements	4000K

Driver	
Phase Cut	Built-in
DALI	Remote
Bluetooth	Remote



Available Accessories
Linear Lens (for elliptical beam)
Frosted Lens (for 75° and 92° beam)
IK10 Clear Lens (for IK10 rating)

Edition 1.1.23 | *Product design and technical data may be subject to change*

Mounting	Track
Finish	Textured Black Textured White
LED CCT	2700K 3000K
Warranty	5 Year

Design	
Product Family	Scope
Adjustability	355° Rotation, 90° Tilt
Material	Powder Coated Aluminium
IP Rating	IP20

Performance	
Lumen efficacy	Up to 89lm/W
CRI (Ra/R9)	90+ (R9: >50)
UGR	<10 (Black), <19 (White)
Ambient Temperature Range	10°- 30°C
COI Compliance model requirements	4000K

Track & Driver Compatibility	
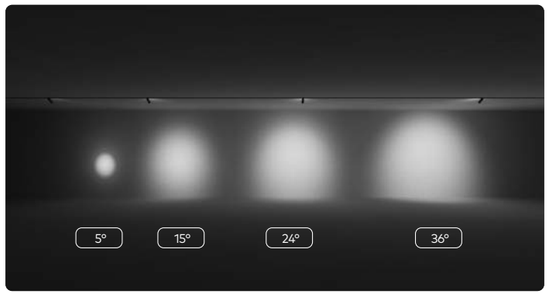
Non-Dim	MX3 Built in
Phase Cut	MX3 In-Track
DALI	MX5 In-Track
Bluetooth	MX5 In-Track



Available Accessories
Linear Lens (for elliptical beams)

Axis

Small (60mm)

Medium (80mm)

		LED Power	Lumens (at 3000K)	Beam	Weight	Driver
1	**Small**	7W (200mA)	755lm	60°	910g	Phase Cut, DALI
2	**Medium**	15W (400mA)	1363lm	60°	2.0kg	Phase Cut, DALI, Bluetooth

Key Information	
Mounting	Track
Finish	Textured Black Textured White
LED CCT	3000K 4000K
Warranty	5 Year

Design	
Product Family	Axis
Adjustability	350° Rotation, 90° Tilt
Material	Powder Coated Aluminium
IP Rating	IP20
Class Rating	Class I

Performance	
Lumen efficacy	Up to 86lm/W
CRI (Ra/R9)	97+ (R9: >90)
UGR	<16
Lifetime (Ta 25°C)	>55,000h L90B10
Ambient Temperature Range	10°- 30°C
SDCM	≤2
COI Compliance model requirements	4000K

Track & Driver Compatibility	
Phase Cut	MX1 Built In, MX3 Built In
DALI	MX5 In-Track
Bluetooth	MX5 In-Track

MX1

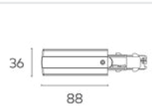
Surface Mounted Single Circuit Track

Track

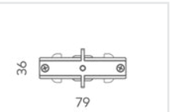
1

MX1 Surface Mounted Track

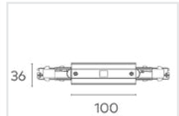
Connectors



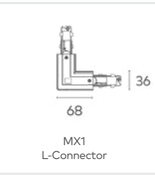
MX1 Live End Connector



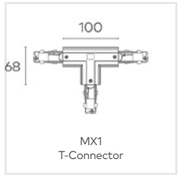
MX1 Mini Straight Joiner



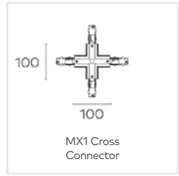
MX1 Centre Feed



MX1 L-Connector



MX1 T-Connector



MX1 Cross Connector

		Length	Maximum Load Bearing
1	**MX1 Surface Mounted Track**	1000mm, 2000mm	30kg/m
	MX1 Suspended Track	1000mm, 2000mm	20kg/m

Key Information	
Mounting	Ceiling Surface, Ceiling Suspended
Finish	■ Textured Black □ Textured White
Warranty	3 Years
Track Mount	Single Circuit (1C)

Design	
Material	Powder Coated Aluminium
IP Rating	IP20

Available Accessories
3m Wire Suspension Kit
3m/5m Canopy Kit

Notes

All MX1 Track is supplied with two end caps for a simple end-to-end solution.

1 Final load bearings are dependent on screws and mounting anchors used. It is the responsibility of the electrical contractor to check final weights.

MX3

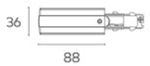
Surface Mounted Three Circuit Track

Track

1

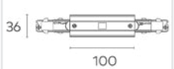
MX3 Surface Mounted Track

Connectors

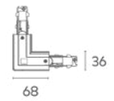


MX3 Live End Connector

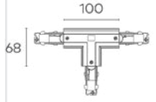
MX3 Mini Straight Joiner



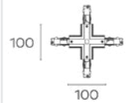
MX3 Centre Feed



MX3 L-Connector (Left, Right)



MX3 T-Connector (Left 1, Left 2, Right 1, Right 2)



MX3 Cross Connector

MX3 Flexible Connector

		Length	Maximum Load Bearing
1	**MX3 Surface Mounted Track**	1000mm, 2000mm, 3000mm	30kg/m
	MX3 Suspended Track	1000mm, 2000mm, 3000mm	20kg/m

Key Information	
Mounting	Ceiling Surface, Ceiling Suspended
Finish	■ Textured Black □ Textured White
Warranty	5 Years
Track Mount	Three Circuit (3C)

Design	
Material	Powder Coated Aluminium
IP Rating	IP20

Available Accessories
End Cap
3m/5m Wire Suspension Kit
3m/5m Canopy Kit
Rod Suspension Kit
250/510mm Rod
Track Cover Plate

Notes
All accessories are supplied separately. Please factor in these components when planning your track design.
1 Final load bearings are dependent on screws and mounting anchors used. It is the responsibility of the electrical contractor to check final weights.

MX3

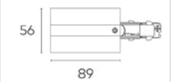
Recessed Three Circuit Track

Track

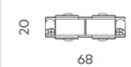
1

MX3 Recessed Track

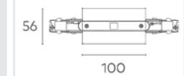
Connectors



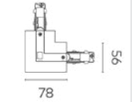
MX3 Recessed Live End Connector



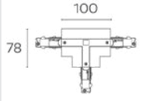
MX3 Mini Straight Joiner



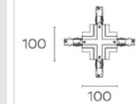
MX3 Recessed Centre Feed



MX3 Recessed L-Connector



MX3 Recessed T-Connector



MX3 Recessed Cross Connector

		Length	Maximum Load Bearing
1	**MX3 Recessed Track**	1000mm, 2000mm, 3000mm	30kg/m

Key Information	
Mounting	Ceiling Recessed
Finish	■ Textured Black □ Textured White
Warranty	5 Years
Track Mount	Three Circuit (3C)

Design	
Material	Powder Coated Aluminium
IP Rating	IP20

Available Accessories
End Cap
Swing Clip
Track Cover Plate

Notes
All accessories are supplied separately. Please factor in these components when planning your track design.

Mounting	Surface, Recessed
Finish	Textured Black Aluminium
Diffuser	Opal Diffuser
Strip Compatibility	Eclipse EC10 (10mm)
LED CCT	2700K 3000K 4000K RGB RGBW 2700K-6500K (Tunable White)
Warranty	5 Years

Design	
Product Family	Eclipse
Material	Powdercoated Aluminum, PMMA Diffuser
IP Rating	IP67
Class Rating	Class III
Maximum Supply Length	3 metres
Cut Lengths	25mm, 50mm (RGB/RGBW/ Tunable white)
Maximum Run Power	100W
No. of LED's	120/m, 240/m (Tunable White)

Performance	
Lumen efficacy	Up to 69lm/W
CRI (Ra/R9)	90+ (R9: >50)
Lifetime (Ta 25°C)	>54,000h L80B10
Ambient Temperature Range	10°- 30°C
SDCM	≤3

Driver	
Non-Dim	Remote
Phase Cut	Remote
DALI	Remote
Bluetooth	Remote

Reading Wall Light

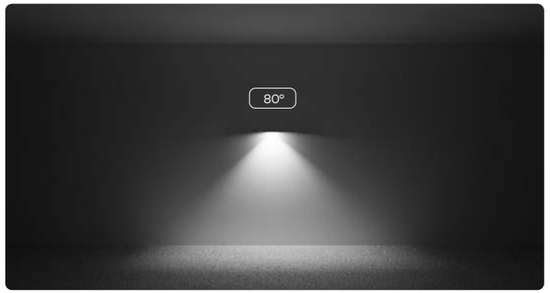
		LED Power	Lumens (at 3000K)	Beam	Weight
1	**Codex Reading Wall Light**	4W (250mA)	180lm	80°	710g

Key Information	
Mounting	Wall Surface
Finish	Textured Black Textured White
LED CCT	3000K
Warranty	3 Years

Design	
Adjustability	180° rotation, 150° tilt
Material	Powder Coated Aluminium
IP Rating	IP20
Class Rating	Class I

Performance	
Lumen efficacy	Up to 41lm/W
CRI (Ra/R9)	80+ (R9:>0)
Lifetime (Ta 25°C)	>54,000h L70B10
Ambient Temperature Range	10°- 30°C
SDCM	≤3

Driver	
3-Step Dimming	Built-in with Integral Touchswitch



Edition 1.1.23 | *Product design and technical data may be subject to change*

Tourmaline

Wall Light

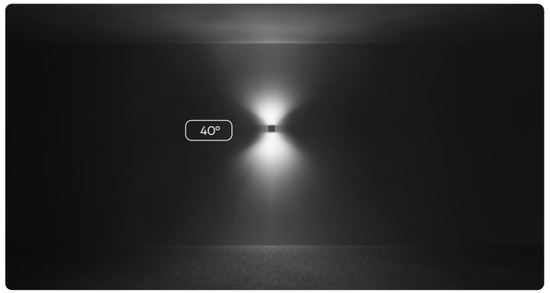
		LED Power	Lumens (at 3000K)	Beam	Weight
1	**Tourmaline Wall Light**	6W (150mA)	180lm	40°	732g

Key Information	
Mounting	Wall Surface
Finish	Textured Black Textured White Textured Black/Gold Textured White/Gold
LED CCT	3000K
Warranty	2 Years

Design	
Material	Powder Coated Aluminium
IP Rating	IP20
Class Rating	Class I

Performance	
Lumen efficacy	Up to 56lm/W
CRI (Ra/R9)	80+ (R9:>0)
Lifetime (Ta 25°C)	>54,000h L70B10
Ambient Temperature Range	10°- 30°C
SDCM	≤3

Driver	
Non-Dim	Built-in
DALI	Remote
Bluetooth	Remote



Edition 1.1.23 | *Product design and technical data may be subject to change*

Bianco

Wall Light

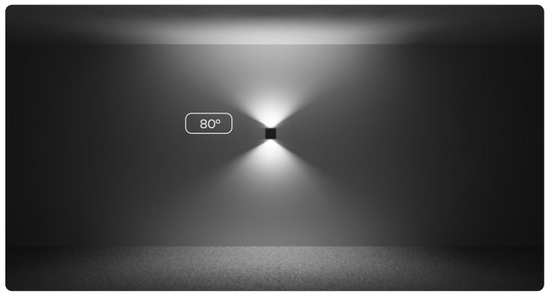
		LED Power	Lumens (at 3000K)	Beam	Weight
1	**Bianco Wall Light**	6W (500mA)	380lm	80°	1.2kg

Key Information	
Mounting	Wall Surface
Finish	Textured Black Textured White
LED CCT	3000K
Warranty	3 Years

Design	
Material	Powder Coated Aluminium
IP Rating	IP65
Class Rating	Class I

Performance	
Lumen efficacy	Up to 44lm/W
CRI (Ra/R9)	80+ (R9:>0)
Lifetime (Ta 25°C)	>54,000h L70B10
Ambient Temperature Range	10°- 30°C
SDCM	≤3

Driver	
Phase Cut	Built-in
DALI	Remote



Edition 1.1.23 | *Product design and technical data may be subject to change*

		(500mA at 3V)					
4	**Flat Asymmetrical**	1.5W (24V DC)	107lm	70° Asymmetrical	98g	≥50 x 50mm	Anodised Aluminium
		(500mA at 3V)					

Key Information	
Mounting	Recessed
Finish	316 Stainless Steel Anodised Aluminium
LED CCT	2700K 3000K 4000K RGB
Warranty	5 Years

Design	
IP Rating	IP66/IP67
IK Rating	IK10
Class Rating	Class III

Performance	
Lumen efficacy	Up to 93lm/W
CRI (Ra/R9)	80+ (R9: >0)
Lifetime (Ta 25ºC)	>60,000h L80B10
Ambient Temperature Range	10º- 30ºC
SDCM	≤3

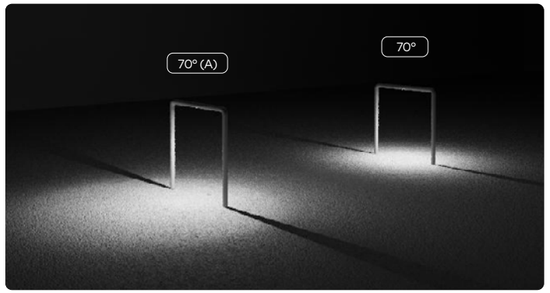
Driver	
Constant Voltage Non-Dim	Remote, wired in parallel
Constant Current Non-Dim	Remote, wired in series

Driver Notes

Non-dimmable Driver can still operate off DALI Relay with on/off control only.

Allow minimum 2W input power for 24V DC version when pairing suitable drivers.

36V DC options available upon request for longer distance runs.



Notes

Cutout holes must be pre-drilled by handrail manufacturer and not by the contractor on site to ensure illumination consistency.

Options suited for other handrail sizes and thicknesses are available upon request.

Ingress Protection (IP)

The degree of protection the luminaire provides against the ingress of dust and moisture, indicated by the prefix of IP.

First Digit

Degrees of protection against solid foreign objects indicated by the first characteristic numeral (See AS60529).

1_	Solid bodies that are larger than 50mm (such as accidental contact with the hand) are protected against.
2_	Solid bodies that are larger than 12.5mm (such as a finger) are protected against.
3_	Solid bodies that are larger than 2.5mm (such as tools) are protected against.
4_	Solid bodies that are larger than 1mm (such as fine tools) are protected against.
5_	Dust is protected against (no harmful deposits)
6_	Protected against dust completely.

Second Digit

Degrees of protection against water indicated by the second characteristic numeral (See AS60529).

_1	Condensation is protected against.
_2	Water falling at up to 15° is protected against.
_3	Water falling at up to 60° is protected against.
_4	Water projections from all directions are protected against.
_5	Jets of water from all directions are protected against.
_6	Jets of water similar to heavy seas from all directions are protected against.
_7	The effects of immersion are protected against.
_8	Prolonged effects of immersion are protected at a specified depth.

Impact Resistance (IK)

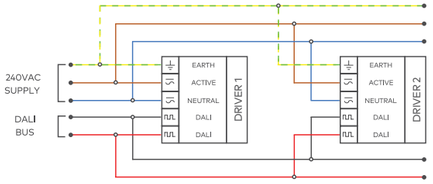
The degree of protection by luminaires against external mechanical impacts, indicated by the prefix of IK.

00	No protection
01	Protection against an impact energy of 0.15 J
02	Protection against an impact energy of 0.20 J
03	Protection against an impact energy of 0.35 J
04	Protection against an impact energy of 0.50 J
05	Protection against an impact energy of 0.70 J
06	Protection against an impact energy of 1 J
07	Protection against an impact energy of 2 J
08	Protection against an impact energy of 5 J
09	Protection against an impact energy of 10 J
10	Protection against an impact energy of 20 J

Dimming Wiring Guide

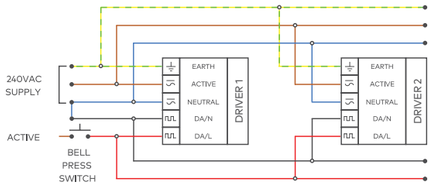
These diagrams provide quick guidance on how to correctly wire one or more drivers together with the associated dimmer.

DALI Dimming



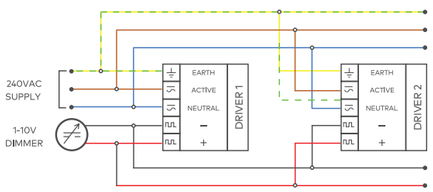
- Maximum of 64 DALI devices per DALI bus.
- DALI bus connections are not polarity sensitive.

PushDIM (Tridonic switchDIM / Phase Pulse Control)



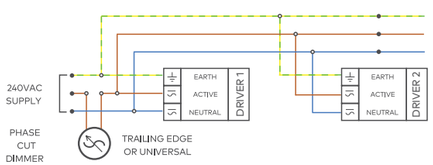
- Similar wiring can be done for other non-Tridonic drivers that have a TouchDIM, PUSHDIM, or similar feature.
- Switch mechanism must be a bell press / momentary / non-latching type.
- DA/N to Neutral link can be done at the driver to reduce cabling to 4-core.
- 5-core wiring allows flexibility to easily convert to DALI in the future.

1-10V Analogue Dimming



- Do not connect 1-10V dimmer or driver terminals to mains voltage.
- Refer to specific dimmer data sheet for maximum number of devices.
- 0-10V controllers can also be used on 1-10V drivers.

Phase Cut Dimming



- Trailing-edge dimmers are preferred for LED drivers.
- Universal dimmers running in or manually set to trailing-edge operations also acceptable.
- Leading-edge dimmers can cause minor buzzing from drivers and should be avoided.
- Check specific dimmer data sheet for maximum total wattage of connected drivers.

Low Voltage Guide

A guide to maintain lamp performance and allow for longer runs for 24V luminaires.

Sizing of Low Voltage Wiring

1 Locate and plot fixtures on plan. Choose the lighting equipment necessary to create the desired lighting effects. Mark lamp wattage for each fixture location.

2 Identify potential driver locations. The ideal locations are those which provide for the shortest possible low voltage distances (inconspicuous areas such as behind rocks and shrubbery within the landscape).

3 Add the total wattage for the proposed low voltage run. Measure the wire lengths from the driver to the fixture locations. Find the distance to the "Center of Load" of the low voltage run.

$$\text{Centre of Load} = \frac{\text{Distance from first to last fixture}}{2} + \text{Distance from transformer to first fixture}$$

2 Using the Lighting Wire Selection Table, select the wattage column which applies. Look down the column stopping at a distance, in meters, that is equal or greater than the "Center of Load" distance. Look across to find the proper wire size for your layout.

Lighting Wire Selection Table

Wire Size (mm²)	Total Wattage (W)				
	15	35	60	120	240
1	40m	16m	10m	5m	2.5m
1.5	66m	28m	16m	8m	4m
2.5	110m	47m	27m	13.5m	6.5m
4	175m	75m	44m	22m	11m
6	280m	113m	66m	33m	16.5m
10	440m	188m	110m	55m	27.5m

Note: The Wire Selection Table provided is based on a maximum allowable voltage drop of 1 volt. Electrical designs which allow greater than 1 volt voltage drop, reduce rated light output beyond acceptable levels.

The importance of the proper wire selection is demonstrated below. Both examples have the same total watts and identical overall lengths of wire run, yet require different wire sizes, or multiple wire runs, to operate within the 1 volt maximum voltage drop Lighting criteria.

Note: Installations should be in accordance with the Australian Standards AS/NZS 3000 and applicable local codes.

Note: The above table should be used as a guide only.

Example

Total wattage: *10W x 5 = 50 watts* Centre of Load: 10m/2 + 5m = 10m Single Wire Run: 1.5mm²

Total wattage: *10W x 5 = 50 watts* Centre of Load: 5m/2 + 10m = 12.5m Single Wire Run: 2.5mm²

Special Thanks

This publication wouldn't be possible without the ongoing support of our project partners, distributors and photographers who have assisted in providing content.
